Joomla classes across North America

Custom Joomla Training Classes

Cost for Custom Classes

1 to 10 students: \$1500 per day

11 to 16 students: \$150 per day for each additional student

We don't recommend more than one teacher per 16 students, so more teachers would be required for larger numbers of students.

Extras

Hiring company is also responsible for:

- Teacher travel and accommodation costs
- Any fees for the training facility

Teacher Locations

We have beginner class teachers within easy reach of almost every major North American city. However, more advanced teachers are spread more widely and such classes may involve more travel.

Disclaimer: We reserve the right to modify prices in certain cases.
